

Errata for Paper 15027 - Scalable Neural-Probabilistic Answer Set Programming

The following corrections were made to the previously published version:

1. In the last paragraph of p. 597, one sentence was corrected since it was partially removed so that it was not readable.
2. In the first paragraph on p. 601, the second last sentence had no link to the correct section of appendices. It was added since it was missing in the previous version.
